GIN

Gin Flavour Profiles

Juniper

Clean, crisp and bold with juniper dominating, balanced by citrus and herbaceous notes.

This is the traditional gin style perfect for gin and tonic whilst also being extremely versatile.

Citrus

Fresh and zesty with citrus notes derived from the essential oils in citrus peel.

These gins often have a more spicy tone with earthy notes.

Spiced

Warm, spicy and earthy, often dominated by traditional spicy botanicals such as coriander, cassia or cardamon, however a number of contemporary gins use less common ones including black peppercorns or ginger.

Floral

Light and delicate with fragrant sweetness. Lightly perfumed with juniper and subtly balanced with citrus and spice.

A great introduction for new gin drinkers.

Fruit

Sweet and full of fruit which sits alongside juniper. These gins make a fantastic G&T but can equally hold their own when drunk neat or with other mixers such as ginger ale, lemonade or bitter lemon depending on the dominant fruit.

Herbaceous

Assertive and distinctive often with unusual botanicals delivering unique flavours.

Many herbaceous gins have a natural affinity with cucumber; try a slice as a garnish instead of lime or lemon.

Brockmans £4.60

England | 40%

Brockmans unique infusion of exquisite botanicals creates an intensely smooth gin with a distinctive original taste. The Bulgarian Coriander plays its part with an aromatic, almost gingery orange flavour, which marries beautifully with the softer, more rounded harmonies of blueberries and blackberries. This combination, together with the dry bitter/ sweet peel of Murician oranges prolong the deeper tones.
